

FIG. 1A is a cross-sectional view of a device 20 in a first state. The device 20 includes a substrate 15 and a first layer 24. A second layer 26 is disposed on the first layer 24. A third layer 28 is disposed on the second layer 26. A fourth layer 30 is disposed on the third layer 28. A fifth layer 31 is disposed on the fourth layer 30. The device 20 is shown in a first state where the first layer 24 is in contact with the second layer 26.

FIG. 1 is a schematic diagram of a system for controlling a vehicle. The system includes a vehicle 10, a controller 12, and a sensor 14. The vehicle 10 is shown in a perspective view, and the controller 12 and sensor 14 are shown in a block diagram. The controller 12 is connected to the sensor 14 and the vehicle 10. The sensor 14 is connected to the vehicle 10. The vehicle 10 is shown in a perspective view, and the controller 12 and sensor 14 are shown in a block diagram. The controller 12 is connected to the sensor 14 and the vehicle 10. The sensor 14 is connected to the vehicle 10.
